Applicant:	
PID Parcel No:	
Project Description:	
Signed: _____	
<p>The above signed agrees to comply with all District policies and rules and regulations regarding irrigator improvements. Per District Rules and Regulations, the District and/or its consultants shall construct the proposed improvement affecting District facilities. Applicant agrees to reimburse the District on any and all costs associated with the proposed improvement, including planning costs. District costs shall and may include management time, consultant time, contractor expenses, materials costs, staff and equipment costs, etc. The costs provided to the applicant prior to construction are considered an estimate and provides an approximate cost to the applicant to consider, applicant agrees that the District will not be obligated to maintain the estimated price. The District will invoice for planning time in evaluating the proposal, but will not commence with the project until the applicant accepts below. The applicant may request in writing that the General Manager consider the applicant's contractor for the installation. In no event shall the applicant's contractor perform any construction without the prior written authorization by the General Manager. If applicants contractor has performed work prior to authorization, the District reserves the right to remove the improvements and repair the existing facility at the expense of the applicant. Applicant also agrees to work with the schedule provided by the District for construction, in no event shall the District place the construction of the improvement before its operations priorities.</p>
